

+ Care and Maintenance Instructions for
lavanto®

Shaping inspiration

**ROSSKOPF
+ PARTNER**

With **lavanto®** you have acquired a modern product from the house of **ROSSKOPF + PARTNER**. Our products from this series are made of high quality materials, such as solid surface material, quartz stone or Stainless steel, are very easy to care for and extremely durable. In order for you to fully enjoy the products from our house, please make note the following:

- When pouring hot or boiling liquids into them, simultaneously allow cold water to run into them as well.
- Please use coasters for hot pots and pans.
- Never use force to remove soils.
- Do not use aggressive chemicals (such as acids or disinfectants with a high percentage of ethanol or colourants / hair tints) or if they come into contact the surface, then rinse them immediately with clear water.
- If bleach comes into contact with them, then clean them no longer than 5 minutes later with an all-purpose cleaner and rinse thoroughly with clean water.
- For contact with strong colouring liquids (for example coffee or red wine) rinse immediately with clean water.
- Prevent contact with fire (for example, burning cigarettes).

Failure to follow these instructions may cause damage for which **ROSSKOPF + PARTNER** cannot assume any warranty. Further information is available at www.rosskopf-partner.com.
